

PRODUCT SPECIFICATION

Model:TC-YJ-004/1035

Protection band: 190-510nm

Optical density: OD3

Visible light transmittance: <15%

Protective laser color: mixed color

Protection characteristics: absorption + reflection

Performance: UV, blue light

Implementation standard: GB30863/EN207

Glasses width:150mm

Glasses height: 54mm

Folding wing width:35mm

Temple length: 90~105mm (adjustable)

Lens thickness 2mm

Product weight:27g

color: mixed color
